

What Barbara wants to say

June 2008

Partnership Board meeting

Bill Norman

When Barbara was growing up

- She moved about a lot
- But for secondary school she went to one school
- Important to keep friends once you leave school
- She went to Welford after school
- She didn't know any one so it was hard BUT she liked it!

When Barbara was growing up

- She didn't have the same kind of choice as she had later in her life
- If she had the choices she has now – she would not have gone to Welford - she would do the things she does now!!
- So plans with REAL choice are a good thing

When Barbara was growing up

?????

- When you are a teenager you very rarely know what you want to do
- Barbara didn't know what she wanted to do so it's really important that
 - You are told about choices -things you could do
 - Your plan should be updated because people change their minds
